

Reporting Standard LRS 200.0

Capital Adequacy Supplementary Information

Objective of this Reporting Standard

This Reporting Standard sets out the requirements for the provision of information to APRA in relation to the supplementary information used to calculate a life company's capital adequacy.

It includes associated specific instructions and must be read in conjunction with *Reporting Standard LRS 001 Reporting Requirements* (LRS 001), including the general instruction guide.

Authority

1. This Reporting Standard is made under section 13 of the *Financial Sector (Collection of Data) Act 2001*.

Purpose

2. The information reported to APRA under this Reporting Standard is used by APRA for the purpose of prudential supervision including assessing compliance with capital adequacy standards.

Application and commencement

3. This Reporting Standard applies to all life insurance companies including friendly societies (together referred to as 'life companies') registered under the *Life Insurance Act 1995* (Life Act). This Reporting Standard applies for reporting periods ending on or after 1 July 2023.

Information required

4. A life company must provide APRA with the information required by this Reporting Standard for each reporting period.
5. The information reported to APRA under this Reporting Standard is not required to be given to policy owners pursuant to section 124 of the Life Act. It does not constitute a reporting document for the purposes of section 124.

Table	Description	Type of Entity and Reporting Period		
		Annual	Annual (Friendly Societies only)	Quarterly
1	<ul style="list-style-type: none"> Unstressed RFBEL Non-participating benefits without entitlement to discretionary additions and friendly society benefits In-force business As at reporting date 	Y	Y	
2	<ul style="list-style-type: none"> Unstressed RFBEL Non-participating benefits without entitlement to discretionary additions and friendly society benefits In-force business As at 12 months after reporting date (discounted back to reporting date) 	Y	Y	
3	<ul style="list-style-type: none"> Unstressed RFBEL Non-participating benefits without entitlement to discretionary additions and friendly society benefits New business As at reporting date and as at 12 months after reporting date (discounted back to reporting date) 	Y	Y	
4	<ul style="list-style-type: none"> Unstressed RFBEL Non-participating benefits without entitlement to discretionary additions All business As at reporting date and as at 12 months after reporting date (discounted back to reporting date) 			Y
5	<ul style="list-style-type: none"> Stressed RFBEL All benefits All business As at reporting date and as at 12 months after reporting date (discounted back to reporting date) 	Y	Y	Y
6	<ul style="list-style-type: none"> Components of termination value Non-participating benefits without entitlement to discretionary additions and friendly society benefits All business As at reporting date 	Y	Y	Y

Table	Description	Type of Entity and Reporting Period		
		Annual	Annual (Friendly Societies only)	Quarterly
7	<ul style="list-style-type: none"> Unstressed RFBEL Non-participating benefits with entitlement to discretionary additions and participating benefits All business As at reporting date 	Y		
8	<ul style="list-style-type: none"> Unstressed other APL components Non-participating benefits with entitlement to discretionary additions and participating benefits All business As at reporting date 	Y

15	<ul style="list-style-type: none"> VAF under the AASB 17 proposal 	This table is collected under LRS 200 for this QIS only		

Method of submission

6. The information required by this Reporting Standard must be given to APRA:
- (a) in electronic format using an electronic method available on APRA's website; or

(b) by a method notified by APRA prior to submission.

Reporting periods and due dates

7. Subject to paragraph 8, a life company must provide the information required by this Reporting Standard:
- (a) in respect of each quarter based on the financial year of the life company on an unaudited basis; and
 - (b) in respect of each financial year of the life company on an audited basis.

Note 1: This means that information provided under this Reporting Standard will be submitted five times for a full financial year.

Note 2: The annual audited information provided under this Reporting Standard must be submitted in conjunction with the annual auditor's report, as required under *Prudential Standard LPS 310 Audit and Related Matters*.

8. If, having regard to the particular circumstances of a life company, APRA considers it necessary or desirable to obtain information more or less frequently than as provided by subparagraph 7(a) or 7(b), APRA may, by notice in writing, change the reporting periods, or specify reporting periods, for the particular life company.
9. The information required by this Reporting Standard in respect of a life company must be provided to APRA:
- (a) in the case of quarterly information, within 20 business days after the end of the reporting period to which the information relates;
 - (b) in the case of annual information, within three months after the end of the reporting period to which the information relates; or
 - (c) in the case of information provided in accordance with paragraph 8, within the time specified by notice in writing.
10. APRA may, in writing, grant a life company an extension of a due date, in which case the new due date will be the date on the notice of extension.

Note: For the avoidance of doubt, if the due date for a particular reporting period falls on a day other than a usual business day, a life company is nonetheless required to submit the information required no later than the due date.

Quality control

11. The information provided by a life company under this Reporting Standard must be the product of systems, processes and controls that have been reviewed and tested by the Auditor of the life company. This will require the Auditor to review and test the life company's systems, processes and controls supporting the reporting of the information to enable the life company to provide reliable financial information to APRA. This review and testing must be done on:
- (a) an annual basis or more frequently if necessary to enable the Auditor to form an opinion on the reliability and accuracy of data; and

- (b) at least a limited assurance engagement consistent with professional standards and guidance notes issued by the Auditing and Assurance Standards Board as may be amended from time to time, to the extent that they are not inconsistent with the requirements of *Prudential Standard LPS 310 Audit and Related Matters*.
12. All information provided by a life company under this Reporting Standard must be subject to systems, processes and controls developed by the life company for the internal review and authorisation of that information. It is the responsibility of the Board and senior management of the life company to ensure that an appropriate set of policies and procedures for the authorisation of data submitted to APRA is in place.
 13. Actuarial valuations and calculations included in or used in the preparation of the information provided to APRA must be in accordance with the prudential standards in force for the reporting period. However, life companies may use reasonable estimates when preparing information that will not be audited (i.e. for the first four submissions of information for a full financial year).

Authorisation

14. When an officer or agent of a life company provides the information required by this Reporting Standard using an electronic format, the officer or agent must digitally sign the relevant information using a digital certificate acceptable to APRA.
15. An officer or agent of a life company who submits information under this Reporting Standard must be authorised by either:
 - (a) the Principal Executive Officer of the life company; or
 - (b) the Chief Financial Officer of the life company.

Variations

16. APRA may, by written notice to the life company, vary the reporting requirements of this Reporting Standard in relation to that life company.

Transition

17. A life company must report under the old reporting standard in respect of a transitional reporting period. For these purposes:

old reporting standard means the reporting standard revoked in the determination making this Reporting Standard (being the reporting standard which this Reporting Standard replaces); and

transitional reporting period means a reporting period under the old reporting standard:

- (a) which ended before 1 July 2023; and
- (b) in relation to which the life company was required, under the old reporting standard, to report by a date on or after the date of revocation of the old reporting standard.

Note: For the avoidance of doubt, if a life company was required to report under an old reporting standard, and the reporting documents were due before the date of revocation of the old reporting standard, the life company is still required to provide any overdue reporting documents in accordance with the old reporting standard.

Interpretation

18. In this Reporting Standard:

- (a) unless the contrary intention appears, words and expressions have the meanings given to them in *Prudential Standard LPS 001 Definitions* (LPS 001); and
- (b) the following definitions are applicable:

Auditor means an auditor appointed under paragraph 83 of the Life Act.

capital adequacy standards means the prudential standards which relate to capital adequacy as defined in LPS 001.

Chief Financial Officer means the chief financial officer of the life company, by whatever name called.

financial year has the meaning in the *Corporations Act 2001*.

general instruction guide refers to the general instruction guide set out in Attachment A of LRS 001.

Life Act means the *Life Insurance Act 1995*.

Principal Executive Officer means the principal executive officer of the life company, by whatever name called, and whether or not he or she is a member of the governing board of the entity.

reporting period means a reporting period under subparagraph 7(a) or 7(b) or, if applicable, paragraph 8.

19. Unless the contrary intention appears, a reference to an Act, Prudential Standard, Reporting Standard, Australian Accounting or Auditing Standard is a reference to the instrument as in force from time to time.

Reporting Standard LRS 200.0

Capital Adequacy Supplementary Information

General instructions

Reporting tables

Tables described in this Reporting Standard list each of the data fields required to be reported. The data fields are listed sequentially in the column order that they will appear in the reported data set. Constraints on the data that can be reported for each field have also been provided.

Any specific combination of values in the table must not appear on more than one row in that table when reported.

Definitions

Terms highlighted in ***bold italics*** indicate that the definition is provided in these instructions.

A

<i>Actual gross claims incurred</i>	This is actual claims incurred over the reporting period, gross of reinsurance. The basis of this item must reflect the basis used for the RFBEL calculation.
<i>Actual gross initial commission paid</i>	This is actual initial commissions paid over the reporting period, gross of reinsurance.
<i>Actual gross premium accrued</i>	<p>This is actual premiums accrued over the reporting period, gross of reinsurance. The starting basis of this item must reflect the basis used for the RFBEL calculation, and apply adjustments to this item (and other related items) to meet the following definition.</p> <p>Premium is defined as gross of commissions, before profit share rebates, and inclusive of stamp duty, policy fees, loadings and discounts. This definition is consistent with the definition of premium in <i>Reporting Standard LRS 750.0 Claims and Disputes</i> (LRS 750.0).</p> <p>Accrued premium is defined as:</p> <p>Premiums received - A + B, where:</p> <p>A = Premiums in advance at the end of the specified period - Premiums in advance at the start of the specified period; and</p> <p>B = Unpaid premiums at the end of the specified period – Unpaid premiums at the start of the specified period.</p>

	Life companies may use approximate methods and may take into account materiality (i.e. whether it would result in a materially different outcome from applying the outlined definition) to report this item if accrued premium which meets the outlined definition is not readily available.
<i>Actual gross renewal commission incurred</i>	This is actual renewal commissions incurred over the reporting period, gross of reinsurance. The basis of this item must reflect the basis used for the RFBEL calculation.
<i>Actual maintenance and overhead costs incurred</i>	This is actual maintenance and overhead costs incurred over the reporting period. The basis of this item must reflect the basis used for the RFBEL calculation.
<i>Actual net claims incurred</i>	This is actual claims incurred over the reporting period, net of reinsurance. The basis of this item must reflect the basis used for the RFBEL calculation.
<i>Actual net initial commission paid</i>	This is actual initial commissions paid over the reporting period, net of reinsurance.
<i>Actual net premiums accrued</i>	<p>This is actual premiums accrued over the reporting period, net of reinsurance. The starting basis of this item must reflect the basis used for the RFBEL calculation, and apply adjustments to this item (and other related items) to meet the definitions of premium and accrued premium outlined in <i>actual gross premiums accrued</i>.</p> <p>Life companies may use approximate methods and may take into account materiality (i.e. whether it would result in a materially different outcome from applying the outlined definition) to report this item if accrued premium which meets the outlined definition is not readily available.</p>
<i>Actual net renewal commission incurred</i>	This is actual renewal commissions incurred over the reporting period, net of reinsurance. The basis of this item must reflect the basis used for the RFBEL calculation.
<i>Annuity and investment liability amount</i>	<p>Annuity and investment liability value are to be treated as past premium liabilities and not as future premium liabilities.</p> <p>In respect of annuities (L2 and L18 product groups), these items report the total liability value in respect of future annuity payments and expenses arising from the premiums received prior to the reporting date.</p> <p>In respect of investment products (L15, L16 and L17 product groups), these items report the total liability value in respect of amounts owing to</p>

	policy owners arising from deposit premiums received prior to the reporting date.
<i>APRA product group</i>	This is <i>APRA product group</i> which is defined in <i>LRS 001 Reporting Requirements</i> . Life companies must report data items by the listed <i>APRA product groups</i> where required.

C

<i>Capital requirement excluding hedging</i> <i>(Variable Annuity Capital Charge Calculation Item)</i>	This is the estimate of capital requirement for variable annuities covering the associated insurance and asset risks under the combined scenario, in the absence of any hedging / risk mitigation arrangements as per <i>Prudential Standard LPS 110 Capital Adequacy</i> (LPS 110).
<i>Capital requirement including hedging</i> <i>(Variable Annuity Capital Charge Calculation Item)</i>	This is the estimate of capital requirement for variable annuities covering the associated insurance and asset risks under the combined scenario, allowing for the effect of any hedging / risk mitigation arrangements as per LPS 110.
<i>Claims in Course of Payment (CICP) reserve</i>	<p>This is the total expected claim payments and expenses in respect of claims in course of payment, that are associated with past premiums received prior to the reporting date.</p> <p>This also includes other related liabilities such as reopened claims and closed but not reported liabilities.</p> <p>This is part of past premium liabilities of RFBEL.</p>

D

<i>Diversification factor between asset and insurance risks</i>	This is the diversification factor, where readily determined, that has been estimated between asset and insurance risks in calculating the capital requirement (including hedging).
--	---

E

<i>Effectiveness factor</i>	This is the <i>effectiveness factor</i> E used to reflect the level of sophistication of the assumed model of dynamic hedging for the variable annuity capital calculation.
<i>Event pre-diversified</i>	This is the change in risk-free best estimate liabilities (RFBEL) (net of reinsurance) or participating policy liability (net of reinsurance), whichever that is applicable, as a result of applying the event stress prior to any allowance for diversification benefits between the insurance stresses.
<i>Expected gross claims incurred</i>	<p>This is expected claims incurred over the reporting period, gross of reinsurance.</p> <p>This is estimated at the end of the previous reporting period for the purposes of projecting RFBEL at that date.</p>
<i>Expected gross premiums accrued</i>	<p>This is expected premiums accrued over the reporting period, gross of reinsurance.</p> <p>This is estimated at the end of the previous reporting period for the purposes of projecting RFBEL at that date.</p> <p>The starting basis of this item must reflect the basis used for the RFBEL calculation, and apply adjustments to this item (and other related items) to meet the definitions of premium and accrued premium outlined in <i>actual gross premiums accrued</i>.</p> <p>Life companies may use approximate methods and may take into account materiality (i.e. whether it would result in a materially different outcome from applying the outlined definition) to report this item if accrued premium which meets the outlined definition is not readily available.</p>
<i>Expected gross renewal commissions incurred</i>	<p>This is expected renewal commissions incurred over the reporting period, gross of reinsurance.</p> <p>This is estimated at the end of the previous reporting period for the purposes of projecting RFBEL at that date.</p>
<i>Expected maintenance and overhead costs incurred</i>	<p>This is expected maintenance and overhead cost incurred over the reporting period.</p> <p>This is estimated at the end of the previous reporting period for the purposes of projecting RFBEL at that date.</p>
<i>Expected net claims incurred</i>	This is expected claims incurred over the reporting period, net of reinsurance.

	This is estimated at the end of the previous reporting period for the purposes of projecting RFBEL at that date.
<i>Expected net premiums accrued</i>	<p>This is expected premiums accrued over the reporting period, net of reinsurance.</p> <p>This is estimated at the end of the previous reporting period for the purposes of projecting RFBEL at that date.</p> <p>The starting basis of this item must reflect the basis used for the RFBEL calculation, and apply adjustments to this item (and other related items) to meet the definitions of premium and accrued premium outlined in <i>actual gross premiums accrued</i>.</p> <p>Life companies may use approximate methods and may take into account materiality (i.e. whether it would result in a materially different outcome from applying the outlined definition) to report this item if accrued premium which meets the outlined definition is not readily available.</p>
<i>Expected net renewal commissions incurred</i>	<p>This is expected renewal commissions incurred over the reporting period, net of reinsurance.</p> <p>This is estimated at the end of the previous reporting period for the purposes of projecting RFBEL at that date.</p>

F

<i>Future premium liabilities (gross of reinsurance)</i>	<p>This is unstressed RFBEL arising from premiums expected to be received after the reporting date, gross of reinsurance.</p> <p><i>Future premium liabilities (gross of reinsurance)</i> is calculated as the sum of (all gross of reinsurance):</p> <ul style="list-style-type: none"> • <i>Present value of expected incurred claims;</i> • <i>Present value of expected commissions;</i> • <i>Present value of expected maintenance and overhead costs; and</i> • <i>Present value of expected other future premium liability component</i> <p>Less:</p> <ul style="list-style-type: none"> • <i>Present value of expected premiums.</i> <p>This is part of <i>RFBEL (gross of reinsurance)</i>.</p>
<i>Future premium liabilities (net of reinsurance)</i>	<p>This is unstressed RFBEL arising from premiums expected to be received after the reporting date, net of reinsurance.</p>

	<p><i>Future premium liabilities (net of reinsurance)</i> is calculated as the sum of (all net of reinsurance):</p> <ul style="list-style-type: none"> • <i>Present value of expected incurred claims;</i> • <i>Present value of expected commissions;</i> • <i>Present value of expected other future premium liability component;</i> and • <i>Present value of expected maintenance and overhead costs</i> <p>Less:</p> <ul style="list-style-type: none"> • <i>Present value of expected premiums.</i> <p>This is part of <i>RFBEL (net of reinsurance)</i>.</p>
--	--

I

<i>Investment Fluctuation Reserve (IFR)</i>	<p>This is a reserve used for smoothing discretionary additions for non-participating benefits. For the purpose of the capital adequacy standards the investment fluctuation reserve is defined to be the difference between the value of the assets administered for the purpose of a subcategory and the aggregate value of the accounts under the policies belonging to that subcategory.</p>
<i>Incurred But Not Reported (IBNR) reserve</i>	<p>This is the total expected claim payments and expenses in respect of claims incurred but not reported, that are associated with past premiums received prior to the reporting date.</p> <p>This is part of past premium liabilities of RFBEL.</p>
<i>In-force business</i> <i>(Insurance business)</i>	<p>This is business which was in-force as at the end of the previous reporting period which is still in-force as at the reporting date.</p>
<i>Insurance business</i>	<p>This is the type of <i>insurance business</i> that a life company can have. Life companies must report data items by <i>insurance business</i> where required. <i>Insurance business</i> can either be:</p> <ul style="list-style-type: none"> • <i>In-force business;</i> • <i>New business;</i> and • All business consisting of <i>in-force business</i> and <i>new business</i>. <p>They can further be broken down into the following:</p> <ul style="list-style-type: none"> • <i>In-force business</i> – Unstressed <i>RFBEL (gross of reinsurance)</i>; • <i>In-force business</i> – Unstressed <i>RFBEL (net of reinsurance)</i>; • <i>New business</i> – Unstressed <i>RFBEL (gross of reinsurance)</i>; • <i>New business</i> – Unstressed <i>RFBEL (net of reinsurance)</i>;

	<ul style="list-style-type: none"> • All business – Unstressed <i>RFBEL (gross of reinsurance)</i>; • All business – Unstressed <i>RFBEL (net of reinsurance)</i>; • All business – Stressed <i>RFBEL (gross of reinsurance)</i>; and • All business – Stressed <i>RFBEL (net of reinsurance)</i>.
<i>Insurance benefit</i>	<p>This is the type of <i>insurance benefit</i> that a life policy can include. Life companies must report data items by <i>insurance benefit</i> where required. <i>Insurance benefits</i> can be:</p> <ul style="list-style-type: none"> • Non-participating benefits; • Participating benefits; • Friendly society benefits; or • All benefits consisting of non-participating benefits, participating benefits and friendly society benefits. <p>Non-participating benefits can either be:</p> <ul style="list-style-type: none"> • Non-participating benefits without entitlement to discretionary additions; or • Non-participating benefits with entitlement to discretionary addition.

L

<i>Life company fund</i>	<p>This means the type of <i>life company fund</i>. Possible types are:</p> <ul style="list-style-type: none"> • Statutory fund; and • Benefit fund.
<i>Longevity pre-diversified</i>	<p>This is the change in RFBEL (net of reinsurance) or participating policy liability (net of reinsurance), whichever that is applicable as a result of applying the longevity stress prior to any allowance for diversification benefits between the insurance stresses.</p>

M

<i>Morbidity future pre-diversified</i>	<p>This is the change in RFBEL (net of reinsurance) or participating policy liability (net of reinsurance), whichever that is applicable as a result of applying the morbidity future stress prior to any allowance for diversification benefits between the insurance stresses.</p>
<i>Morbidity random pre-diversified</i>	<p>This is the change in RFBEL (net of reinsurance) or participating policy liability (net of reinsurance), whichever that is applicable as a result of applying the morbidity random stress prior to any allowance for diversification benefits between the insurance stresses.</p>
<i>Mortality future pre-diversified</i>	<p>This is the change in RFBEL (net of reinsurance) or participating policy liability (net of reinsurance), whichever that is applicable as a result of applying the mortality future stress prior to any allowance for diversification benefits between the insurance stresses.</p>

<i>Mortality random pre-diversified</i>	This is the change in RFBEL (net of reinsurance) or participating policy liability (net of reinsurance), whichever that is applicable as a result of applying the mortality random stress prior to any allowance for diversification benefits between the insurance stresses.
--	---

N

<i>New business (Insurance business)</i>	This is <i>new business</i> commenced during reporting period. <i>New business</i> is defined in <i>LRF 750.0 Claims and Disputes</i> . Life companies that adopt a short term contract boundary for AASB 17 and treat renewals as new business should not follow this approach for this reporting standard.
---	--

O

<i>Other components of termination value</i>	<p>This is the value of any other components that must be included in the termination value, as defined in <i>Prudential Standard LPS 112 Capital Adequacy: Measurement of Capital</i> (LPS 112), of the respective <i>APRA product group</i>, on top of the past premium liabilities and the excess premium refunds.</p> <p>Other components reported should have allowance for surrender values paid in the event of voluntary termination, consistent with the requirement of <i>Prudential Standard LPS 360 Termination Values, Minimum Surrender Values and Paid-up Values</i>.</p>
<i>Other past premium liability component</i>	This is the present value of other past premium liability components of RFBEL that do not fall under the categories of <i>CICP reserve, IBNR reserve, RBNA reserve</i> and <i>URR</i> .

P

<i>Past premium liabilities (gross of reinsurance)</i>	<p>This is the value of unstressed RFBEL arising from premiums expected to be received after the reporting date, gross of reinsurance.</p> <p><i>Past premium liabilities (gross of reinsurance)</i> is calculated as the sum of (all gross of reinsurance):</p> <ul style="list-style-type: none"> • <i>Claims in Course of Payment (CICP) reserve;</i> • <i>Incurred But Not Reported (IBNR) reserve;</i> • <i>Reported But Not Assessed (RBNA) reserve;</i> • <i>Unexpired Risk Reserve (URR);</i> and • <i>Other past premium liability component.</i> <p>This is part of <i>RFBEL (gross of reinsurance)</i>.</p>
<i>Past premium liabilities net of reinsurance</i>	This is the value of unstressed RFBEL arising from premiums expected to be received after the reporting date, net of reinsurance.

	<p>Past premium liabilities (net of reinsurance) is calculated as the sum of (all net of reinsurance):</p> <ul style="list-style-type: none"> • Claims in Course of Payment (CICP) reserve; • Incurred But Not Reported (IBNR) reserve; • Reported But Not Assessed (RBNA) reserve; • Unexpired Risk Reserve (URR); and • Other past premium liability component. <p>This is part of RFBEL (net of reinsurance).</p>
Policy owners' retained profits (PRP)	This is policy owner's retained profits (PRP) as defined in the Life Act.
Premium refund in excess of unexpired risk reserve	This is the value of any premium refund payable (in excess of the unexpired risk reserve held) at policy's termination based on the policy document's contractual agreement. The premium refund must be present-valued to the reporting date.
Present value of expected benefit payments	<p>This is the present value of all expected future benefit payments after the reporting date.</p> <p>This is part of future and past premium liabilities of RFBEL.</p>
Present value of expected commissions	<p>This is the present value of all future expected commissions that are associated with premiums expected to be received after the reporting date.</p> <p>This is part of future premium liabilities of RFBEL.</p>
Present value of expected expenses	<p>This is the present value of all future expected expenses after the reporting date.</p> <p>This is part of future and past premium liabilities of RFBEL.</p>
Present value of expected incurred claims	<p>This is the present value of all future expected claim payments that are associated with premiums expected to be received after the reporting date.</p> <p>This is part of future premium liabilities of RFBEL.</p>
Present value of expected other RFBEL components	<p>This is the present value of all other specific components of the future and past premium liabilities that do not fall under the categories of benefit payments, expenses and receipts.</p> <p>This is part of future and past premium liabilities of RFBEL.</p>

<i>Present value of expected other future premium liability component</i>	<p>This is the present value of all other specific components of the future premium liability that do not fall under the categories of claims, commission, expenses and premiums.</p> <p>This is part of future premium liabilities of RFBEL.</p>
<i>Present value of expected maintenance and overhead costs</i>	<p>This is the present value of all future expected maintenance and overheads costs that are associated with premiums expected to be received after the reporting date.</p> <p>This is part of future premium liabilities of RFBEL.</p>
<i>Present value of expected premiums</i>	<p>This is the present value of all future premiums expected to be received after the reporting date.</p> <p>This is part of future premium liabilities of RFBEL.</p>
<i>Present value of expected receipts</i>	<p>This is the present value of all expected future receipts after the reporting date.</p> <p>This is part of future and past premium liabilities of RFBEL.</p>
<i>Present value of risk-free value of future bonuses</i>	<p>This is the present value of all future bonuses after the reporting date.</p> <p>This is part of participating policy liabilities.</p>

R

<i>Reported But Not Assessed (RBNA) reserve</i>	<p>This is the total expected claim payments and expenses in respect of claims reported but not assessed, that are associated with past premiums received prior to the reporting date.</p> <p>This is part of past premium liabilities of RFBEL.</p>
<i>RFBEL (gross of reinsurance)</i>	<p>This is RFBEL as defined in <i>LPS 112 Capital Adequacy: Measurement of Capital</i> (LPS 112) but determined gross of reinsurance.</p> <p>Where relevant, <i>RFBEL (gross of reinsurance)</i> is calculated as the sum of:</p> <ul style="list-style-type: none"> • <i>Future premium liabilities (gross of reinsurance)</i>; and • <i>Past premium liabilities (gross of reinsurance)</i>. <p>Where relevant, <i>RFBEL (gross of reinsurance)</i> is calculated as the sum of (all gross of reinsurance):</p> <ul style="list-style-type: none"> • <i>Present value of expected benefit payments</i>; • <i>Present value of expected expenses</i>; and • <i>Present value of expected other RFBEL components</i>

	<p>Less:</p> <ul style="list-style-type: none"> • <i>Present value of expected receipts.</i>
<i>RFBEL (net of reinsurance)</i>	<p>This is RBEL as defined in LPS 112, determined net of reinsurance.</p> <p>Where relevant, <i>RFBEL net of reinsurance</i> is also calculated as the sum of:</p> <ul style="list-style-type: none"> • <i>Future premium liabilities (net of reinsurance);</i> and • <i>Past premium liabilities (net of reinsurance).</i> <p>Where relevant, <i>RFBEL (net of reinsurance)</i> is calculated as the sum of (all net of reinsurance):</p> <ul style="list-style-type: none"> • <i>Present value of expected benefit payments;</i> • <i>Present value of expected expenses;</i> and • <i>Present value of expected other RBEL components</i> <p>Less:</p> <ul style="list-style-type: none"> • <i>Present value of expected receipts.</i>

T

<i>Termination value</i>	This is the total <i>termination value</i> used in calculating adjusted policy liabilities for the purpose of determining capital base.
<i>Total stress post diversified</i>	<p>This is the impact of the aggregate stresses across the APRA product groups post allowance for diversification benefits between the insurance stresses.</p> <p>Allocation of <i>total stress post diversified</i> to the APRA product groups is to be based on a systematic and rational approach reflecting how each APRA product group contributed to the stress.</p>

U

<i>Unexpired Risk Reserve (URR)</i>	<p>This is the total expected future claim payments and expenses associated with unexpired proportion of past premiums received prior to the reporting date.</p> <p>This is part of past premium liabilities of RBEL.</p>
<i>Unstressed net past premium liabilities</i>	This is the present value of total expected claims and expenses (net of reinsurance), arising from all premiums that have been received prior to the reporting date, before the effect of the insurance risk stresses.

V

<i>Valuation basis</i>	<p>Within each APRA product group, some valuation data will be collected on up to three bases, indicated as follows:</p> <ul style="list-style-type: none"> • Last Year (LY)/LY: Current position, based on previous year's valuation basis. • LY/This Year (TY): Current position, based on previous year's valuation basis substituting current year's investment and economic assumptions. • TY/TY: Current position, based on current year's valuation basis
<i>Value of assets of the fund (VAF) for non-reinsurance assets</i>	<p>[This item has been included in LRS 200 for the purposes of the 2021 QIS only because LRS 117 has been scoped out from the QIS. This item will be included in LRS 117 (and excluded from LRS 200) when APRA drafts the final reporting standards.]</p> <p>This is the value of the assets of the fund determined for the purpose of calculating asset concentration limits for non-reinsurance asset exposures in the fund.</p> <p>For the purposes of the 2021 QIS, insurers must calculate the VAF for non-reinsurance assets applying the VAF proposal outlined in section 2.4.2 of the response paper.</p>

Specific instructions

Table 1: Unstressed RFBEL - Non-participating benefits without entitlement to discretionary additions and friendly society benefits – In-force business – As at the reporting date

Reporting basis

This section relates to:

- life companies including friendly societies;
- non-participating benefits without entitlement to discretionary additions and friendly society benefits; and
- *in-force business*.

Report this table for each statutory fund for life insurers and each benefit fund for friendly societies.

Report unstressed values before the effect of insurance risk stresses as at the reporting date.

Report this table on an annual basis only.

Units of measurement

Report the dollar values in this table in whole Australian dollars.

Report all items (including premium related numbers) as positive numbers unless otherwise stated.

	Name	Valid values	Description
